

Dear Resident,

White Hart Junction Improvement – major slip road works

We are writing to advise you of the next stage of work for the White Hart Junction Improvement. Our next programmed work will be to widen the A419 southbound exit slip road to four lanes. This will include construction of an embankment retaining wall, as well as new drainage, kerbs, signs and lighting along the slip road.

To undertake these activities safely and efficiently, we need to fully close the A419 southbound exit slip road and have had approval from Highways England to start from Monday 12 October for approximately seven weeks.

The White Hart roundabout will remain open to traffic during this time and signed diversion routes will be in place to assist road users affected by the closures.

The work will be carried out during daytime hours, between 7.30am and 6pm, Mondays to Saturdays. We apologise in advance for any disturbance or inconvenience these essential works may cause.

Thank you for your support with this project, we welcome all feedback, comments and queries should you wish to contact us please email whitehart.junction@osborne.co.uk or WHJ@swindon.gov.uk.

There is a monthly e-newsletter dedicated to the New Eastern Villages development, which includes planning, and highways updates; please subscribe at: www.swindon.gov.uk/newsletter.

The emergency number for White Hart Junction improvement regarding construction and traffic management is 07899 751807.

Yours faithfully,

Alex Skinner
Stakeholder Liaison Manager
